System tested and certified by WQA to NSF/ANSI Standards 42, 53, and 401 for the reduction of the claims specified on the Performance Data Sheet and at www.WQA.org.

- All contaminants reduced by this filter are listed.
- Not all contaminants listed may be present in your water.
- . Does not remove all contaminants that may be present in tap water.
- The contaminants covered in NSF/ANSI 401 have been deemed as incidental/emerging compounds and have been detected in drinking water supplies at trace levels. These compounds can affect some consumers' perception of drinking water quality.

Filter is only to be used with cold water.

Systems certified for cyst reduction may be used on disinfected waters that may contain filterable cysts.
